A CENTURY OF RESEARCH & EDUCATION

RSNA 1999

Don't miss the meeting of the Century.

RSNA '99 offers an impressive schedule of lectures, orations, symposia, panel discussions, poster sessions and workshops. These educational programs are designed to benefit every radiological professional.

RSNA '99 attendees will be able to learn about the results of new research, while reviewing basic knowledge and skills. This meeting will also allow assessment of the latest in radiologic equipment and services. Attendees will be given the opportunity to exchange ideas in radiologic science and technology.

These are just some of the invaluable benefits of attending RSNA '99.

- Advance registration ends for Non-North American attendees October 1, 1999.
- Advance registration ends for North American attendees October 28, 1999.
- Member registration begins mid-April 1999.
- Non-member registration opens mid-June 1999.

Preface

The 1996–1998 *RSNA Index to Imaging Literature* is constructed in the traditional design used in the preceding issues.

New index terms are added as new subjects appear. When there are no new entries under a term for 3 years, the term is deleted. Additions and deletions are listed on page 930.

For this issue, *AJR* has provided their contents for all of 1998. They join *Radiology*, *RadioGraphics*, and *Academic Radiology* in making all contents for the full year available to readers. Similar action by other journals would be most welcome. Since the publication process imposes a deadline of October 1, contents of other journals for the last quarter of 1998 are carried forward to the next issue.
